

Cultivating Safe Farm Operations: An eLearning Safety Series

Dee Jepsen (jepsen.4@osu.edu)

This information accompanies the application for an NACAA **on-line learning module**.

To access the link to the eLearning series, please visit this website: <https://ofbf.org/agsafety/>.

Follow the prompt as a “New Learner” and complete the application.

You will create your own username and password.

Please use the Access Code: “ohfb” in the dropdown menu.

Please select OHIO as your state. * This is important that you select OHIO as your state, so that the safety program is available to you once you enter Farm Bureau University (FBU - a national e-Learning environment).

Click submit, you will then be granted access into FBU.

At Farm Bureau University, scroll until you see the Ohio Farm Bureau: Cultivating Safe Farm Operations.

Click “Register”

Use the username and password that you just created.

You will enter the course home page.

Click the hyperlink for Module 1 Ag Safety 101: An Introduction to Ag Safety.

In the module you can navigate through the course in 2 ways:

Click the next arrow in the lower right corner of the slide to continue through the chapters.

Use the menu tab (in the top right corner of the slide) to navigate and advance through the module’s chapters.

At the conclusion of the module, you will have to take a test in order to advance to the next module.
(You will be able to do it!)

After Module 1 is complete, you will be able to go back to the homepage and access Module 2:
Tractor and Roadway Safety

Continue through this module the same as above using the arrows in the lower right corner to advance through the chapters.

The menu bar is different in this module. You must go through the 4 units (Tractor Rollover, Tractor Runover, PTO Hazards, and Roadway Safety) before the Test is unlocked.

You will have to complete the test before advancing to the next module. (You can do it! And even if you fail the first time, you can re-try it!)

Module 3 is Equipment and Machinery Safety.

Continue through this module the same as the others.

You will have to review each point on each slide to advance within chapters. However, you can use the menu bar on the top right corner of the slide to advance to the end of the course.

You will have to complete the test before returning to the home page. (You can do it! And even if you fail the first time, you can re-try it!)

If for any reason you are blocked from entering any portion the website, please contact Dee Jepsen (Jepsen.4@osu.edu) to trouble shoot your situation.
